# REALLY FUNNY GAGS

## **REALLY FUNNY GAGS - A quick laugh watching somebody else's suffering.**

Really Funny Gags is a series of one minute animated shorts, that act as a quick joke between commercial breaks for the TV audience. Really Funny Gags is focused on News Channels and other similar broadcasters, looking for a quick relief for their serious programs.

Really Funny Gags are simple lines in a black and white animation, telling different gags in every episode. THERE'S NO DIALOGUE, EVER. The idea is to make the visual storytelling clear enough to tell a quick joke.

References can go from old MAD magazines to some Belgian comic book authors, and even the old Pink Panther TV animation.
